Personal Portfolio: <https://kenfcheng.github.io/Portfolio3/>

Full Stack Web Developer

A creative mind utilizing various sets of skills to create websites that look great and more importantly user friendly. Great at doing independent work as well as collaborating with others. Excels at problem solving and resource gathering. Relatively new to coding, from the world of business management and the service world industry. Driven by a chance to apply and take what I know and see how I can utilize it with what I have learned.

Skills

Front End: HTML, CSS, JavaScript, JQuery

Back End: Passport, mySQL, Sequelize, MongoDB, Routing

Other: Microsoft Office, GitHub, Heroku

Projects

A couple of deploy links for some apps that I've worked on that will show my coding abilities.

A Weather App - <https://kenfcheng.github.io/WeatherApp/>

Note Taker - <https://kenfcheng.github.io/NoteTaker/>
